**ADD THE CONVENIENCE OF A FLEXIBLE SPENDING ACCOUNT TO YOUR HRA/MERP AND SAVE TIME AND MONEY FOR YOUR EMPLOYEES!**

If you are already using ASi to administer your partially self-insured medical insurance plan (HRA/MERP), now is the time to think about adding a Flexible Savings Account (FSA) to your employee benefits portfolio. Opening an FSA is way to pay for out-of-pocket medical, dental, vision and prescription expenses with pre-tax dollars. Since your employees are already submitting their EOBs to ASi for processing, if they also have an FSA account with ASi, we can pay their balance directly without the employee having to submit their FSA claim separately! Since both systems are in-house, we would process the claim, pay the self-insured portion of the claim through the HRA/MERP, then run the employee's portion of the claim through their FSA account and pay the balance to the provider.

Here is an example of how this works:

- \$500.00 Carrier EOB for medical service submitted to ASi.
- \$400.00 Paid to Provider through your self-insured medical plan (i.e. an 80% benefit).
- \$100.00 Paid to Provider from employee's Flexible Spending Account.
- 0- The entire claim is paid directly to provider with no additional action required by the employee!

Having an FSA in conjunction with an HRA/MERP plan provides a tax savings benefit, as well as a convenience factor which would greatly benefit your employees, with very little cost to you.

If you would like to hear more about how instituting an FSA can work for you and your company, please contact ASi at [sales@asibenefits.com](mailto:sales@asibenefits.com) or call (559) 256-1320 and ask to talk to someone about our Flexible Savings Accounts.

We look forward to talking to you about how this incredibly convenient and cost effective service can benefit you and your employees!
